**Re: HL26.1- Re-affirming City of Toronto as a Nuclear Weapons-Free Zone**

Dear members of the Board of Health,

Greenpeace encourages the Board of Health to reaffirm Toronto as a Nuclear Weapons Free Zone. Since our founding in 1971 in Vancouver, Greenpeace has campaigned for the abolition of nuclear weapons. The City of Toronto can contribute to the global campaign to eliminate nuclear arms by raising awareness of the nuclear threat by reaffirming its designation as a nuclear weapons free zone.

Thank you for your attention.

Truly,

A handwritten signature in black ink, appearing to read 'Shawn-Patrick Stensil', enclosed within a large, hand-drawn oval.
