Toronto City Council Chamber 5 May 2010

We, members of Veterans Against Nuclear Arms and activists from other peace organizations gathered in Toronto, call for action in light of our history.

Remembering the terrible atomic bombing of Hiroshima and Nagasaki in August 1945, we share the longings and determination of atom bomb survivors and peace loving people the world over: nuclear weapons must never again be used and the risk of nuclear holocaust must be ended.

Therefore, we call on the Government of Canada to endorse and support negotiations for a United Nations Convention on the Abolition of Nuclear Weapons, as proposed by the United Nations Secretary-General, and to join actively in the global effort to abolish nuclear weapons.
